

VI Edition of EXPO ENERGIA 2016 from June 7th to 11th, 2016

The Government of Honduras through the Ministry of Energy, Natural Resources, Environment and Mines (Mi Ambiente) led by the Minister, Mr. José Antonio Galdámes, and the Executive Committee of EXPO ENERGIA 2016 under the direction of Mr. Héctor Turcios, will develop from **June 7th to 11th, 2016 the VI Edition of Expo Energía 2016** in the city of San Pedro Sula, with the aim to continue promoting the appropriate framework to encourage the development of renewable resources and energy generation, objectives promoted by the President of Honduras, Mr. Juan Orlando Hernández.

This event will seek to show the country of Honduras as an attractive window for foreign investment in renewable resources, with the commitment on national development and care of the biodiversity.

Expo Energía is a bi-annual event inaugurated with its first edition in 2005 and developed to date, bringing together those involved in the area of Renewable Energy to exchange experiences, methods, technologies, equipment, supplies and services.

This Event will take place in the Expocentro Convention Center in San Pedro Sula, Honduras, where you will be able to build and strengthen an extensive network of contacts and alliances that will enable new businesses for all participants, positioning the country of Honduras as a pioneer in the development of Renewable Energy and committed to the development and protection of the environment.

The event will feature an extensive program of activities, including:

- Trade Fair Exhibition with 70 booths (internal and external areas), free access.
- Conference Program with national and international experts.
- Business Meetings between national and international companies.
- Forum of Ministries of Energy of Mesoamerica.
- Field Technical Visit

The participants in the event are from the energy sector: wind, solar, biomass, hydropower, photovoltaics, biofuels, hydrocarbons, tidal energy and geothermal energy, who for three days will participate in the tradeshow with representatives and experts in renewable resources from countries such as Italy, India, Spain, Brazil, Colombia, United States, France, among others, who will present their companies with an array of products, services and technology transfer, experiences and everything related to energy generation.

The Business Roundtable will allow meetings between national and international businessmen where they will be able to learn and enter new markets that achieve new business transactions in services and/or goods for the development of those companies involved achieving its objectives.
